

# Kindy gets kids ready for big school.

Kindy will never replace the love and care we give our little ones at home but kindy really is a great place to get them ready for school and life after school. Here's a few reasons why.

They are learning social skills like **sharing, co-operation** and **listening** in group settings.

They are encouraged to **make decisions for themselves** and with friends.

They learn to **ask the teacher questions**.

They learn about **other cultures and people**.

They gain the confidence to **make new friends**.

They learn valuable **listening skills**.

They learn to **ask for help**.

Kindy helps them **problem solve**.

Research has shown that kindy gets them ready for life after school too!
